

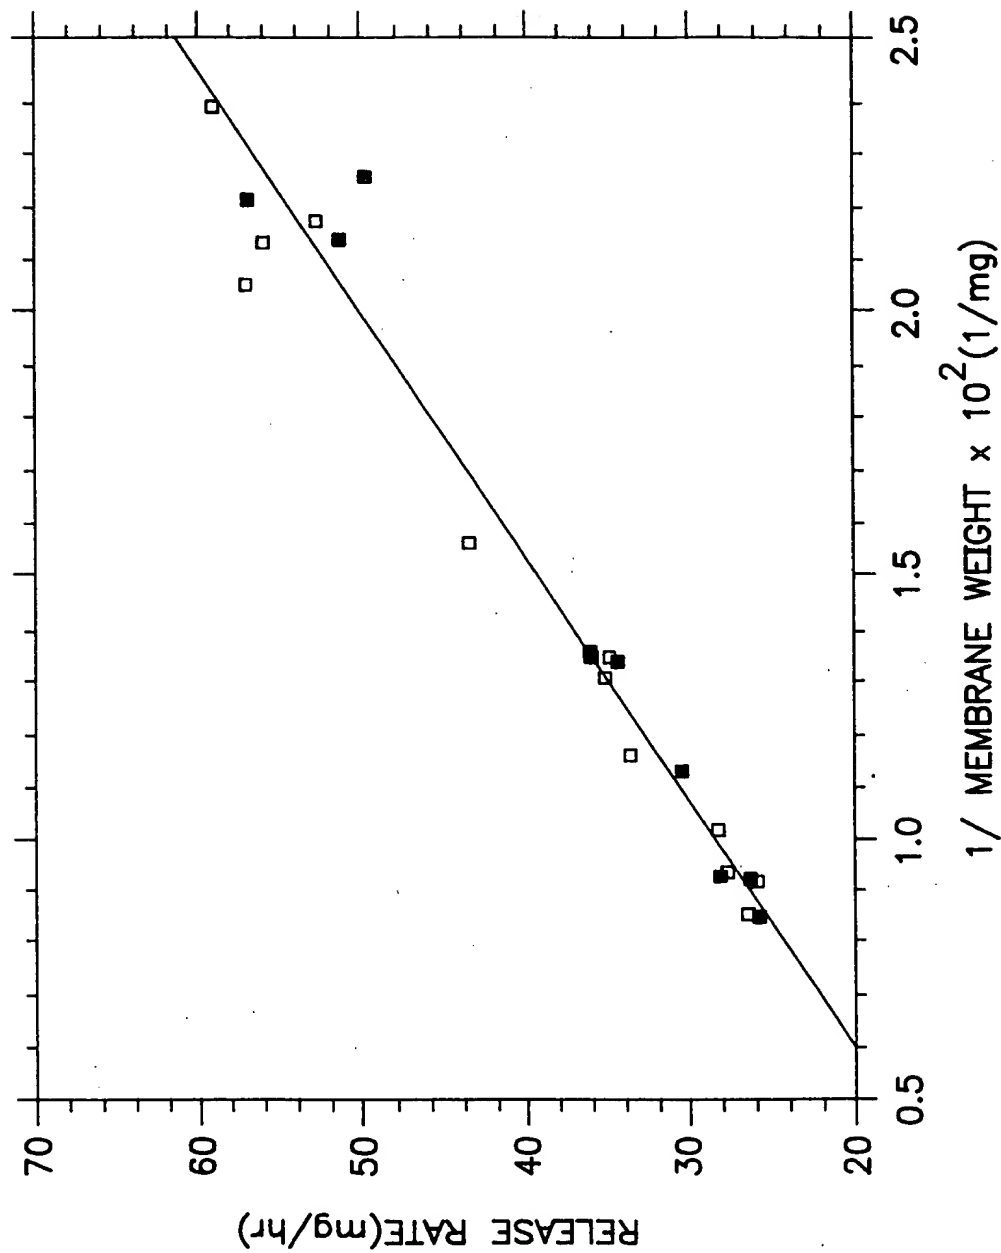

FIG. 1

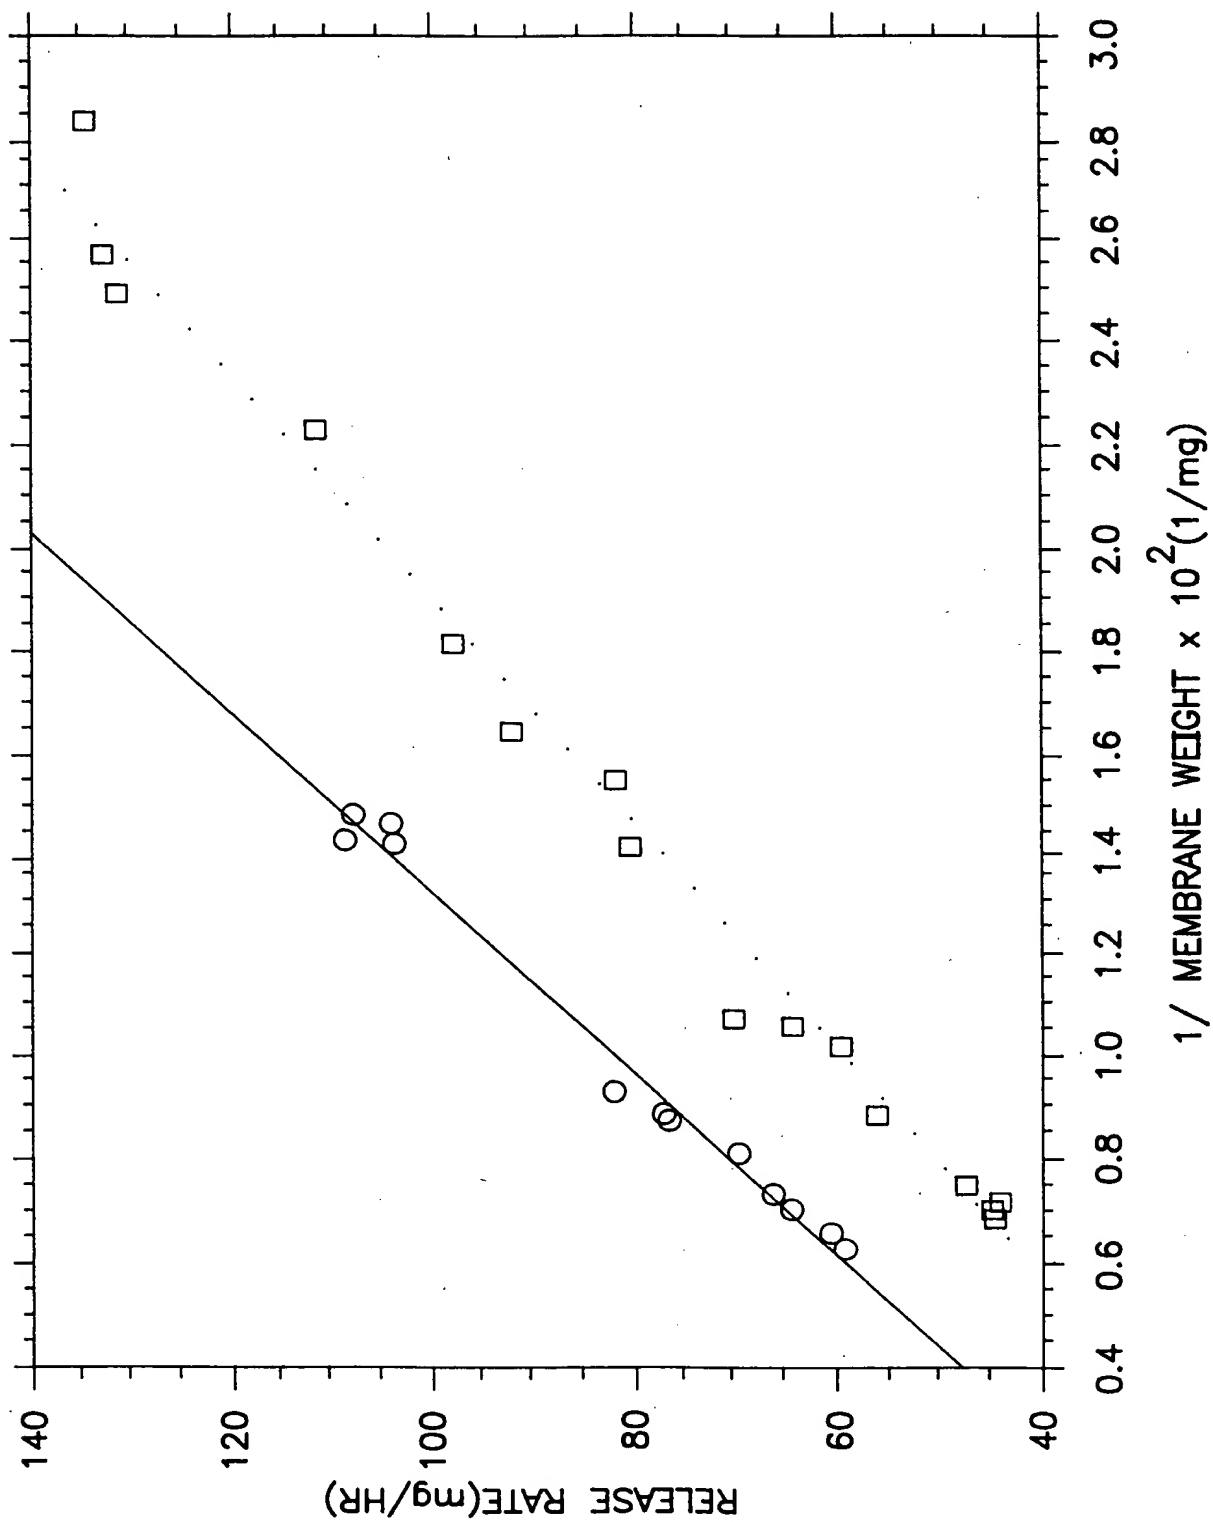

FIG. 2

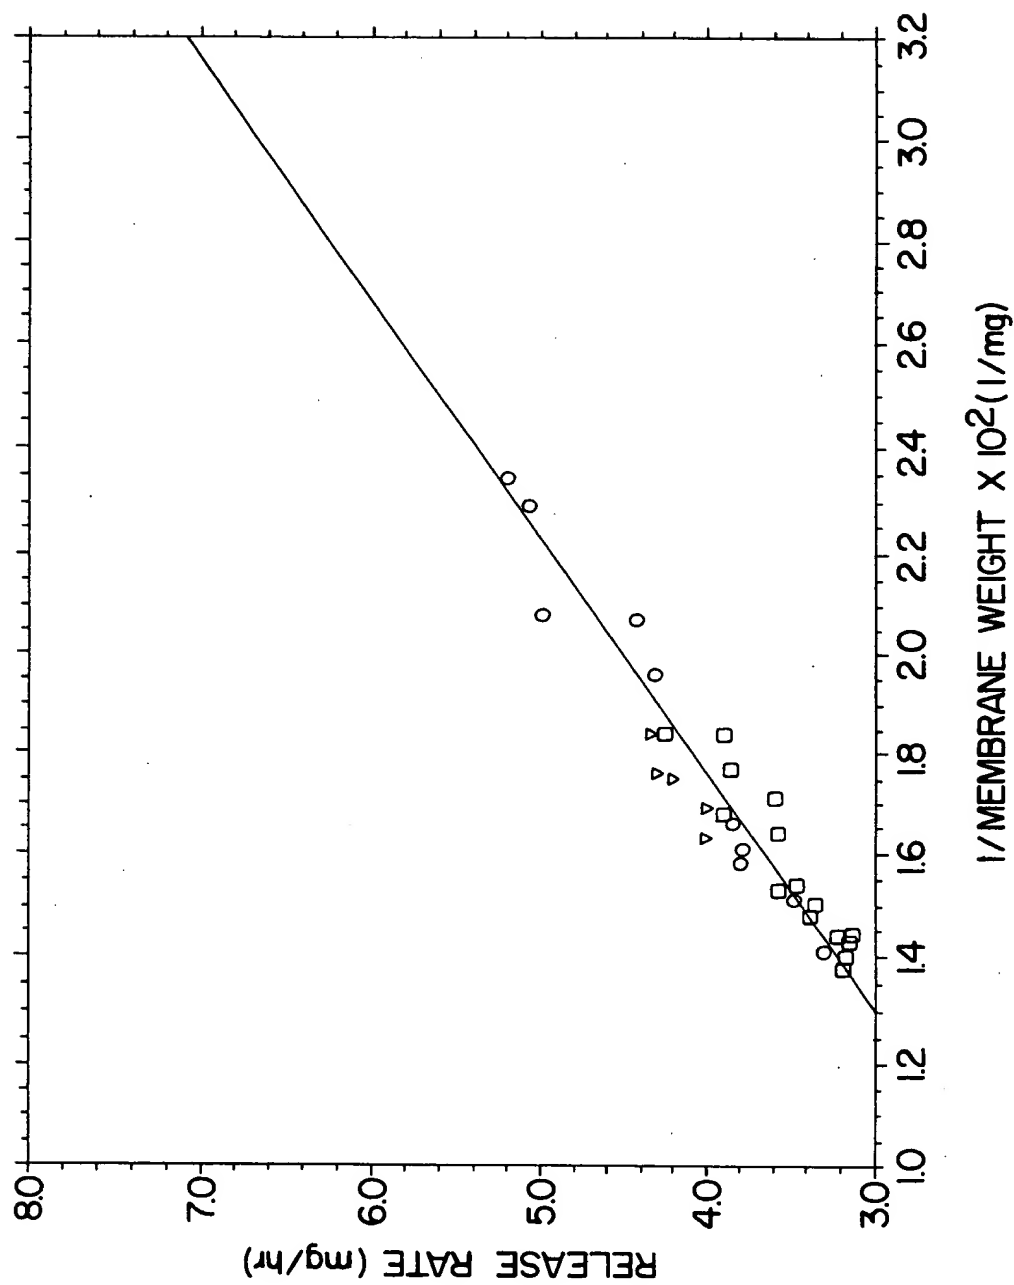

FIG. 3

Figure 1 is a scatter plot showing the relationship between Release Rate (mg/hr) on the Y-axis and $1/\text{MEMBRANE WEIGHT} \times 10^2 (1/\text{mg})$ on the X-axis. The Y-axis ranges from 3.0 to 8.0, and the X-axis ranges from 1.0 to 3.2. Data points are represented by open circles, squares, and triangles. A solid line represents the linear fit to the data, showing a positive correlation.
